Driving the State and Region

CLT is located midway along the East Coast with excellent accessibility to major interstates. More than half the country's population - 163 million people - is two air hours from Charlotte and one day by truck. The Airport is five miles from uptown Charlotte and close to the City's Foreign Trade Zone.

- Charlotte is the center of the nation's fastest growing large Census Urbanized Area.
- North Carolina ranks 4th nationally in total net migration of population.
- All four adjacent states are among the top 20 in migration.
- North Carolina manufacturing workers are the 3rd most productive in the nation. Workers add \$5.91 in value for every dollar of payroll.
- The Charlotte area is home to 920 foreign-owned companies.

Charlotte employs 20% of the state's workforce in the industry.

INFORMATION

CLT Air Cargo Center

Charlotte Air Cargo Center consists of approximately 570,000 square feet of facilities and more than 50 acres of aircraft ramp space. The area is adjacent to the Airport's four runways, which can accommodate all types of aircraft. A third parallel runway opened in February 2010. The runways measure 10,000 feet, 9,000 feet, 8,845 feet, and 7,500 feet. An on-airport intermodal rail/truck facility opened in December 2013.

- 60+ freight forwarders, custom brokers and international service providers
- 15+ cargo airlines, plus cargo lift by commercial carriers
- 300+ trucking companies

To further support air cargo operations, CLT has a full complement of international service support organizations including U.S. Customs and Border Protection, which performs immigration and agricultural services. The Charlotte Air Cargo Center is further strengthened by more than 60 freight forwarders, custom house brokers and professional international service providers.

Affordable

Charlotte Douglas International Airport is one of the best operated air transport facilities in the country, maintaining quality service and a competitively low fee structure.

Intermodal Facility

Norfolk Southern Railway's Charlotte Regional Intermodal Facility at CLT is the only facility operating between two active runways with the ability to seamlessly link freight operations by air, rail and truck with access to seaports. The facility is capable of 200,000 lifts annually and compatible with aviation operations. Its strategic location increases efficiency and reduces urban truck transfer traffic. It is expected to create additional growth for a transportation and logistics hub.

Location of Rail Lines

The Charlotte region is the center of the country's largest consolidated rail system. Norfolk Southern Railway and CSX Transportation link 27,000 miles of rail between Charlotte and 22 Eastern states. Both offer piggyback facilities that combine their services with those of the more than 300 trucking firms located here.
